

Dear Visitors

Guests and Staff members are our first concern when it comes to health and safety.

Staff members are trained to apply strict measures set out to ensure that your stay with us is as sanitary, safe, and comfortable as possible:

- * Cleaning methods, before, during and after stay.
- * Receiving guests - Arrivals and departures.
- * Collecting relevant information of the guests, necessary for record keeping.

We have implemented the strictest precautions at our venue, and we ask for your assistance and understanding of the rules implemented for your own safety.

We would love to make your experience as smooth and comfortable as possible.

Best regards.

Melanie
